"The Best Democracy Money Can Buy", by Greg Palast

..courageous reporting...*read this book!*
Michael Moore

"His stories about Bush's election theft, about intelligence agency cover-ups, and globalization – backed up with smoking gun documents, inside sources and on-the-record interviews – will shock even the most informed readers."

Guerrilla News Network named Palast 'Guerrilla of the Year'

"Greg Palast is investigative journalism at its best. No one has exposed more truth about the Bush Cartel and lived to tell the story."

Baltimore Chronicle

Investigative journalist Greg Palast has uncovered scandal, fraud, corruption, and lies in the highest seats of power – from the White House to corporate America. Known in Britain as "the greatest investigative reporter of our time" (Tribune magazine), Palast has broken some of the biggest stories of the past decade, including:

- ***How Bush killed the FBI's investigation of the bin Laden family prior to 9/11***
- ***How the Bush family stole the Florida election***
- ***How Enron cheated, lied, and swindled its way into an energy monopoly***

There are a whole number of Americans who have been hypnotized, propagandized, and short-changed, who know something is wrong. Apparently the moment has come for the *awful truth*.
