***Update on Stephen’s Court-martial, then...***

**Film: “The Execution of Private Slovik”** starring Martin Sheen, Ned Beaty, Gary Busey. Award winning 1974 NBC TV movie portraying the true, long concealed story of Army Pvt. Eddie Slovik, age 24, executed in 1945 by the U.S. government for desertion. \*NOTE: Due to intensity of movies final images, young children should not see this movie.

Stephen Funk’s story has received local, state, and even national media coverage. Guess “*who*” is a military deserter, although mainstream U.S. media doesn’t let American citizens know?

**U.S. PRESIDENT & “COMMANDER IN CHIEF” GEORGE W. BUSH**

He’s 30 years overdue a court-martial -- no record of his reporting for Air National Guard duty, 1972-1973. He was suspended, permanently grounded, as a military jet pilot for AWOL/desertion. His military service record/docs are on THE INTERNET. Go to: [www.awolbush.com](http://www.awolbush.com) for starters.

*Join South Bay Mobilization & Veterans For Peace for an informative evening and a great fundraiser! No one turned away for lack of funds.*
