

"We Had a Democracy Once, But You Crushed It"

Movie & lecture on the 50th Anniversary

*of the CIA Coup that Overthrew the
Democratically Elected leader of Iran,*

Prime Minister Dr. Mohammed Mossadegh

Friday, Sept. 5th at 7:30 pm

**First Unitarian Church
160 North 3rd St. San Jose**

For nearly five decades, the American and British role in the US CIA Coup, that ousted Iran's elected prime minister, and returned the Shah to power, has been lost to history. A copy of the Central Intelligence Agency's still-secret document of the coup was leaked to the New York Times in 2000, revealing the inner workings of the plan that set the stage for the Islamic revolution in 1979.

We will be showing two documentaries, one made in the US, and the other by the British. Come and see for yourself how the US and British Foreign Policy in Middle East conspired to destroy democracy in Iran for oil, resulting in 50 years of dictatorship in Iran.
