Peace and Justice*

**Thursday, Sept. 25th at 7:00 pm**

First Unitarian Church, 160 North 3rd St., San Jose

Today the truth about the War on Iraq is out. This war and Occupation was not about WMD or the liberation of Iraqis. It is about Iraqi Oil & corporations making billions on war contracts. Millions of people around the world hit the streets and shouted "NO WAR for OIL". The anti-war movement shut down San Francisco for 3 days and interrupted "Business as Usual".

"**We Interrupt this Empire...**" and "**Shut Down Downtown Fogtown**" are compilations of short videos that were produced during the United States' invasion of Iraq, while the massive anti-war protests and disruptions were ongoing in the streets in San Francisco by [www.videoactivism.org](http://www.videoactivism.org). Come & see the Power of the People.
