Was the lesson of Florida punch-cards that we need better voting machines, or that there's something deeply wrong with a system where the candidate with fewer votes wins the office?

Voting just seems pointless to many citizens because they recognize the truth: **their votes really DON'T count.** Steven Hill the Author of "**Fixing Elections**" argues our geographic-based, **Winner Takes All political system** is at the root of many of our worst political problems.

See the **documentary video** of the battle for the presidency in Florida and the **undermining of democracy in America.**
