Report Back from WTO Meeting Victory for the People in Cancun!

Peter Rosset, Director of Food First

The failure of the WTO Fifth Ministerial in Cancún, Mexico is a severe blow not just to the WTO, but also to regional agreements such as the Free Trade Area of the Americas (FTAA).

The lack of attention to the legitimate concerns of the developing countries, greed of the U.S. and EU to capture world markets, and the mounting evidence that **the free trade agreements have failed the poorest and the most vulnerable in society, has alienated both the poor countries and civil society.**

Tuesday, Oct. 21th at 7:00 pm

First Unitarian Church, 160 North 3rd St., San Jose

Cancún offers a lesson - strong arm tactics, that might have worked in the past for the U.S. and the EU, are not going to work any more. The walk out demonstrates that poor nations agree on **one principle: No agreement is better than a bad agreement!**

"The sacrifice of Compañero Lee was not in vain, it gave us the energy to derail the WTO talks in Cancun, and his spirit of struggle will live on in our hearts as we keep fighting for that better world that is possible." *Peter Rosset.*

Suggested donation: \$5-\$10.
