What is Bohemian Grove?

Bohemian Grove—a male only club—is a convergence of many of the world's most dangerous and destructive men, from Cheney, Rumsfeld, Bush Jr. and Bush Sr. to the Bechtels, Henry Kissinger, much of the Hoover Institute board, and the CEO's of such Fortune 500 giants as Dupont, Weyerhaeuser, PG&E, Bank of America, etc. It was at Bohemian Grove in 1942 that the atomic bomb Manhattan Project was planned. Bohemian Grove has served as a key venue where the rich and powerful build consensus upon the policies they will inflict on the people and our environment.
