

## We Must Stop the *US Attack on Iran!*

### *The Last Thing They Need Are US Bombs!*

The US plans to control all the energy resources of the Middle East through **brutal war!** In 2003, Iran proposed a comprehensive "grand bargain" to the US, **but the Bush administration ignored it!**

Iran has no nuclear weapons and is not a threat to the U.S. Also, Iran has signed the Nuclear Non-Proliferation Treaty (NPT) and the UN has found no nuclear weapons program. Iran's peaceful nuclear power program is for their energy security. Although Iran has lots of oil, they must import refined fuel because of insufficient refining capacity. The US knows very well that the Iranian nuclear energy program is for peaceful purposes because the US helped them build it! (Sun-Sentinel, 8/30/06)

### **No Attack on Iran! Iran Is No Threat to the US!**

- **The American people want diplomacy, *not another war!***
- Tell your representative to support **HR 770** introduced by Rep. Barbara Lee to prohibit use of funds for covert action for the purpose of causing regime change in Iran, or for military action against Iran.
- Tell Congress to pass a new "Boland Amendment" to *withhold all funds to prevent any attack on Iran!*
- Support a Nuclear Weapons-Free Zone throughout the Middle East.
